

## LEED for Commercial Interiors (LEED-CI)

# HÅG H09 gives 5 (or 6) LEED points

Contribution to green building projects.

LEED for Commercial Interiors offers building owners, tenants, designer and contractors a guideline for creating more efficient, healthier interior spaces that promote comfort and productivity. Points are distributed across 5 major credit categories, where 2 of the categories are relevant for HÅG as manufacturer.

HÅG H09 contributes to green building projects as follow:

### Materials and Resources (MR)

#### MR 2: Construction Waste Management

**LEED intent:** To divert construction and demolition debris in landfills and incineration facilities. Redirect recyclable recovered resources back to the manufacturing process and reusable material to appropriate sites.

**Result:** HÅG H09 has defined waste management for 83% (15% for Energy recovery and 68% for Material recycling & reuse) of the product's components and materials.

**LEED points:** Gives 2 points (out of 2)

#### MR 4: Recycled Content

**LEED intent:** To increase demand for building products that incorporate recycled content materials, thereby reducing impacts resulting from extraction and processing of virgin materials.

**Result:** The HÅG H09 contains 46 % post consumer recycled materials.

**LEED points:** Gives 2 points (out of 2)

#### MR 5: Regional Materials

**LEED intent:** To increase demand for building materials and product that are extracted and manufactured within the region, thereby supporting the regional economy and reducing the environmental impact resulting from transportation.

**Result:** HÅG products are manufactured at Røros, Norway. For most building projects in Norway its possible to have 1 LEED point - bur for the rest of Europe we do not fulfill the requirements.

**LEED points:** Can give 1 point (out of 2) if products are manufactured within a 500 miles/800 km of building project.

### Indoor Environmental Quality (IEQ)

#### IEQ 4.5: Low-Emitting Materials

**LEED intent:** To reduce the quantity of indoor air contaminants that are odorous, irritating and harmful to the comfort and well-being of installers and occupants.

**Result:** HÅG H09 is GREENGUARD certified.

**LEED points:** Gives 1 point (out of 1)
